

New leadership at bridge club

March 2017 - The Tamborine Mountain Bridge Club has elected John Youngman as President after long-serving leader Keith Bowman stepped down earlier this year.

Keith has been made an Honorary Life Member of the Club for his years of service and leadership, particularly during the construction of the club's new premises.

John Youngman told the club's annual general meeting last week that membership continues to grow and he extended a welcome to any people both on the Mountain and in the entire region who are interesting in exploring the game. He said the club is expanding its new member classes.

Weekly competitions and the sense of camaraderie among players are growing.
